I would like to request to speak during the public forum (Speaker from the Floor)?	No
---	----

I do not wish to speak. Please submit my comments to Council for the Public Forum	I just wanted to introduce my company C.O.D.E. TECH LLC to the Greensboro community, and the services we offer in Cyber and Network security as well as vulnerability testing. I did have a question about the safety and security of the small and large business in the city of Greensboro, and where do we stand as a community about possible cyber security breaches within these businesses that service our community?
